Sources: Dollar cut estimates are based on OMB Sequestration Report Pursuant to the Sequestration Transparency Act of 2012. For HOPWA, state funding figures are FY 2012 formula allocations; competitive grant awards for FY 2012 would also be reduced under sequestration, but are not included here. Funding figures For Homeless Assistance combine ESG formula allocations for FY 2012 and competitive CoC grants for FY 2011. Public housing funding estimates for 2012 were calculated in accord with each state share's of capital and operating funds in 2011, as reported in Tables 18-28 and 18-30 of *Analytical Perspectives, Budget of the United States Government, Fiscal Year 2013*. OMB estimates that funding for Housing Choice Vouchers will be cut by \$1.5 billion under sequestration. To estimate the number of families losing voucher assistance, each state's share of the funding cut was calculated in accord with its share of housing assistance payments in 2012, as reported to HUD's Voucher Management System. The estimated funding cut for each state was then divided by the projected average per-voucher cost in that state in 2013. Voucher Management System data were used to calculate an average per-voucher cost for each state in 2013, as well as the number of families served in 2012. All estimates assume state shares of total program funding in 2013 will equal those in 2012.
